(54) Title: A MILL RELINING APPARATUS

(57) Abstract: A mill relining apparatus (1) for handling articles such as liners and lifters within a mill (3). The relining apparatus (1) includes a mast (5), with top (23) and bottom (19) engagement members, which supports one or more article handling arrangements (31). The mast is extendible in length so that it can be locked into a substantially upright position within a mill (3) with the bottom engagement member (19) resting on mill charge (7) within the mill (3) and the top engagement member (23) engaging with an upper surface (99) of the mill (3).
